

# NORTH TEXAS 2017 TRANSITIONAL CARE CONFERENCE

## Pediatric to Adult Care Transitions: Innovative Solutions

Thursday, February 16, 2017

UNT Health Science Center  
Medical Education and Training Building  
1000 Montgomery Street, Fort Worth, Texas 76107

### Join us in exploring Innovative Solutions for Transitions of Care

This conference will provide you information that will help you:

- Examine the necessity for improving care transitions from the different stakeholders' perspectives
- Cite at least four models of care transition practices
- Discuss the need for care transition improvements in North Texas
- Identify care transitions resources available via the GotTransition.org website
- Describe how care transitions curriculum can be developed and implemented into healthcare professions education
- Commit to at least one post-conference action designed to improve care transitions in your own practice

CE credit available for physicians, PAs, physical therapists, NPs, nurses, social workers, pharmacists and other professionals. Full accreditation information is available on the website.

### Who Should Attend

- Physicians
- Physician Assistants
- Nurse Practitioners and Nurses
- Social Workers and Case Managers
- Physical Therapists
- Pharmacists
- Community leaders and patient advocates

### Featured Presentations

#### Cynthia Peacock, MD

*Tells how an Academic Medical Home for Young Adults with Chronic Conditions of Childhood was created in Houston.*

#### Rita Nathawad, MD

*Talks about JaxHATS: The Jacksonville Health and Transitions Services clinic for teens and young adults with chronic medical or developmental problems.*
